.KITCHEN

Every kitchen is different – and there is a suitable concept for every requirement. Manufacturers have long since adapted to the growing demand for space around the sink, hob and fridge, offering everything from XS pantries to XXL kitchen-living spaces.

.HOTEL

The five-star Six Senses Hotel in Crans-Montana by AW² Architecture & Interiors comprises 79 suites and residences. The interior of the building, inspired by Swiss chalets, features polished antique bronze and wall coverings in thick natural leather and natural textiles. Furniture designed by AW² adds a modern touch to the interior.

.LIGHT

The Ephesus Experience Museum is embedded in the archaeological site of modern-day Efes / Selçuk in Turkey. It brings the past of the city of Ephesus to life. The architecture and the visitor experience were designed by Atelier Brückner. Large-format 360-degree projections such as „The Goddess Artemis“ and, above all, the lighting design create a vivid image of the space.

.PRODUCTS

.LIGHT

Lighting is a key element in the overall design of a room or interior. Our selection of the latest products on show at Light + Building and elsewhere will give you a good overview of the products available and help you make the right decisions.

.FLOOR/WALL:

The design of floors and walls is also of paramount importance in hotels. They contribute to the style and character of the building. At the same time, they have to withstand high levels of wear and tear, especially the flooring.
