Post & Story

PRACTICAL EXAMPLE

Maximise the attention of the md community,
by simultaneously flanking your post with a story.

WHAT YOU SHOULD KNOW

- Data delivery up to 2 weeks before desired publication date
- Look for appealing photos with high resolution
- Focus on one topic in terms of content and visuals
- The post is graphically linked in the look-and-feel of md
- For a story in the format 1080 x 1920 px. it's recommended to plan the upper and lower image margin with 250 px. each design-free. This avoids that important elements like profile icon, text, call-to-action, etc. are obscured
- There will be up to 2 placements per week (1 post + 1 story)
- Texts are to be understood as captions and should concentrate on the essentials in terms of content.
Please also note that in the feed only the first 3 lines of text are displayed in the feed and md does not use emojis
- You are welcome to receive an overview of previous posts from the previous month
- You will receive a report 5 working days after publication of the post and/or story
- Post and story are announced as advertisements
- With the booking you confirm that you own the rights of use for the pictures and/or that you own the copyrights for the video
