.AMBIENCE

Interior design concepts for hotels and restaurants increasingly need to embrace technology, personalisation, sustainability and flexibility to create lasting experiences. How can we create interiors where function and atmosphere blend – without compromising on their sense of poetry?

.CRAFT IN ACTION

Even the most striking design only succeeds when concept and execution align. How can planners and builders communicate effectively? How can reservations towards ambitious ideas be overcome – and the skills of craftspeople fully harnessed to ensure joint projects thrive?

.DESIGNING FOR CHILDREN

From clinics to classrooms: how can we design child-friendly spaces? Thoughtful layouts, light, playful concepts and the right materials can turn everyday environments into places where children feel free to live, play and discover.
