.SANITARY SOLUTIONS

Celebrating individuality: Clients are increasingly longing for sanitary spaces that are emotionally engaging and rich in design. We explore how the return of colour and customised fittings is turning these aspirations into reality, creating spaces that place a greater value on water as a precious resource than ever before.

.CLIMATE-RESPONSIVE DESIGN

As temperatures continue to reach new highs, architecture in Germany must adjust to a changing climate. Fortunately, advances in technology now make it possible to adapt environments more flexibly than ever before – throughout the day, across the seasons, indoors and outdoors alike, in residential settings as well as workplaces.

.COLOUR

„One cannot not communicate,“ as communication theorist Paul Watzlawick famously observed. In interior architecture, no other medium embodies this idea quite like colour. A reflection on the interplay between function and emotion.

.SANITARY SOLUTIONS

Sanitary spaces are where technology, comfort and design converge – often within a compact footprint. md presents products, materials and systems that combine functionality, sustainability and design. Selected projects show how these elements can be translated into individual bathroom concepts.

IN EACH ISSUE: PRODUCTS WE LOVE, PROJECTS, INTERVIEWS, SUSTAINABILITY INSIGHTS, BACKGROUND KNOWLEDGE
